

Rotary Leadership Institute Testimonials From February 2016

No matter what you think you know about Rotary, you'll learn more by attending the RLI sessions. Just a few of the topics: strategies for attracting and engaging members, ins and outs of the Rotary Foundation, planning and funding International and community service projects, parliamentary procedure, strategic planning, club communications, and building a strong club. I met leaders from other clubs. We shared ideas and advice. I left each session with contacts and resources. Three Saturdays very well spent.

Ken Middleton

"The Rotary Leadership Institute has been a great experience for me. I learned so much about Rotary International, the Foundation, Grants, my District, and the many different service projects both international and local that Rotary serves. The new friends and connections I made are invaluable to me in both my Rotary involvement and personal life. "

Carol Margrave

I enjoyed participating in RLI sessions for two major reasons:

RLI curriculum is structured to encompass all aspects of Rotary activities. This "book knowledge" was further enhanced by dedicated and experienced instructors. Role playing activities promoted engagement and discussions.

Attending RLI also provided me opportunity to meet other Rotarians from different clubs of different sizes. Many of these Rotarians have held various offices in their clubs and were able to discuss challenges/opportunities of their respective clubs. Sharing of their "street knowledge" really enriches the entire RLI program. Naresh Shah

After retiring and being a member of my local Rotary Club for eighteen years, I decided to learn more about Rotary International. The opportunity to participate in the Rotary Leadership Institute has helped me better understand the mission and work of Rotary International through its local clubs, districts, and international programs and service opportunities. Attending the Rotary Leadership Institute three Saturdays over this past year has provided me with a much better understanding of and appreciation for the differences between being a local Rotary club member and being a Rotarian. I would highly recommend and encourage all Rotarians to enroll in the Rotary Leadership Institute!"

Robert Rogow, Foundation Director, Rotary Club of Richmond, KY
